

International Association for Child Safety, Inc.
November 7 – 9, 2008 Annual Meeting
Chicago

MISSION STATEMENT

When the IAFCS was first formed, these goals were outlined:

- Encourage manufacturers of child safety products to produce more effective, quality products.

As our membership grows, we have sought out and given a greater ability to work with manufacturers and industry professionals to urge them to improve the quality and effectiveness of those products currently on the market, as well as assist in the development of new and improved products.

- Educate parents on home safety issues.

All of the safety products in the world will not keep a child safe if parents are not educated and made aware of the many hazards that exist in the home and their role in preventing injury.

- Enhance the profession of child safety professionals.

A knack for installing things and being handy with tools no sooner makes a childproofer than good parenting prevents injuries to children. By raising the level of professionalism in the childproofing industry, through the promotion of education and risk management, the IAFCS continues to enhance the reputation of child safety professionals and promote consumer confidence.

OLD MISSION STATEMENT

The purpose for which this corporation was formed is to promote safety awareness and injury prevention for children.

GOALS

1. Encourage manufacturers to produce more effective quality products.
2. Educate parents on home safety issues.
3. Enhance the profession of child safety professionals.

New Mission Statement:

IAFCS is an organization of child safety-related businesses whose specific goal is to promote the professional childproofing industry and our members' businesses.
